

PLUM PUDDING: EVER THE MORE DEMANDING OF MY TEENAGE OBSESSIONS (The Gregories Book 1)

Orphaned 13 year old Danny Preston is fostered by his wicked aunt Bella, the alcoholic landlady of the failing village pub, the Lost & Found. Bella is only interested in the monthly fostering fee she receives from the local authority, and the boys trust fund which has been handsomely furnished by insurances. Otherwise the boy is an intense irritation to her and she makes him do menial chores around the pub to cover his board. Danny finds and escape from the pub. Climbing down the old wisteria from his first floor window he can access the village. Here he spies the fabulously aloof Victoria Poulting, alias Plum Pudding, riding through the village on her spritely palomino pony. Plum seeds a world of fantasy in the boy which helps him cope with the difficult times. Bella does not bother to provide meals for the boy: they live in a pub and she leaves him to live on the crisps and snacks he can find behind the bar. As long as his chores are done he can survive as he will. Seeing the problem old Pete, the retired game keeper, decides to mentor the boy. He gives the boy an escape into the countryside where he learns to fish and to shoot. Soon he is using the pubs neglected kitchen to create meals from the days bag. He develops a keen interest in cheffing which is fuelled by the myriad of cooking shows on TV. This is a teenage romance with the nostalgic backdrop of English country life. As Danny is developing as a sportsman and a chef he is still having to contend with his aunts attempts to extort monies from his inheritance, he social workers abhorrence of field sports and a brute of a bully at school. He is also subjected to a regular tirade of barroom banter much of which is polemic and far from politically correct. Having little guidance as to the propriety of such attitudes and opinions he assumes that, as they are adult in origin, they must have authority. This leaves him vulnerable to making faux pas both at school and in

society. This is steeped in satire reflecting a society that would force everybody to conform to one persuasion whilst making it illegal to discriminate against diversity. Still behind the challenge of Danny's situation an endearing history develops whilst plots and counter plots are a constant threat to the boys fragile world. Danny finally faces his major potentially life changing challenge. The vicar has said that he will pray for a solution, but can that ever be enough; and can Danny ever hope to achieve the level of social standing necessary for him to be realistically considered as a suitor for the enigmatic Plum? This work is structured on powerful themes: a teenage romance set against adversity; endearing memoirs of a countryman with a venture into the intense world of celebrity chaffing.
