

## Cold War Cold Heart: An Accidental Spy

Jonathan Baeshore is a career-oriented member of the USN during the height of the Cold War era. His talents as a tactical designer/programmer make him invaluable to the Navy and a person of particular interest to other military organizations, especially the USSR. Unaware of how valuable his talents are, he is catapulted into a world of espionage and intrigue beyond his control. Ed Robinson, Jonathan's subordinate, turns out to be more than what he seems, trying to help Jonathan navigate his way through the tangled web of Navy Intelligence yet Jonathan believes him to be his number one enemy and will stop at nothing, including murder, to get control of his own situation, rebuffing all offers of help. Run with Jonathan as he finds intrigue in all its forms, no matter who it is with, realizing that in this business you either put out or you get out. Not recommended for persons under the age of 18.
