

## Double Trouble: Smile Now.... Die Later

Kev Dog was a Pasadena Devil Lane who migrated to the streets of Denver Colorado to capitalize off the extreme benefits of the dope game. Jealousy turned to envy when rival gang members plotted to jack him for his money and dope, which ended in the death of him and his beloved fiancée. Kev Dog's greatest assist that he left behind was his twin daughters, Teyona and Keyona who vowed to revenge their father's death, and go against one of the coldest kinpins, and Crip gang leader to ever walk the ghetto streets of Denver Colorado. His twin daughters rage and hatred escalates into Double Trouble as they establish their own version of the ghetto art of war, which creates a vicious blood bath against the Crips and Bloods, leaving the innocence streets of Denver filled with body bags, twisted in a deadly ball of confusion. This book is rated triple X for the extreme violent contents that has been realistically conveyed through the un-censorships that reflect the true urban struggles, and realities of the ghetto games.
