

The Mood Ring

Everything is going well for single mum, Beth Trelawney and her two sons. But when she remarries and has another son, the new set-up tips the balance. Beth finds herself in an increasingly tense household, until one fateful night when she is accused of harming her youngest child. Teenager Danny is convinced that his mum is innocent. He still believes in magic too, but his beliefs are beginning to waver. As the truth creeps out, it becomes apparent that Beth isn't who everyone thought she was... Moving, gripping and full of hope, The Mood Ring is an unforgettable story about breaking free from the past to forge a new future.
