

Chimaera (Well of Echoes)

All resistance has been crushed. In a few minutes of overwhelming violence the Councils air-dreadnought fleet has destroyed Fiz Gorgos defences. Xervish Flydd, Irisis and their allies have been condemned to die in a brutal aerial spectacle designed to reinforce Chief Scrutator Ghorr's power and majesty. Nish is their one remaining hope. But Nish is trapped in a burning watchtower, and hunted by both the scrutators and his former lover, Ullii, whose twin brother he accidentally killed. Before Nish can hope to rescue his friends, he must convince Ullii to spare him, then overcome the most powerful cabal of mancers in the world as well as the Councils four hundred crack guards. And even if he succeeds, to win the war the allies still have to defeat the scrutators and overthrow Nennifer, the corrupt Councils dread bastion, before the rampaging lyrix overwhelm all Santhenar.
