

## Letting Go (The Seduction Series #1)

Feeling bored and unfulfilled with her humdrum life, Jennifer seeks excitement exploring the online personals. Driven by a need she does not fully understand, she responds to an ad that is definitely on the kinky side, never dreaming that she will actually follow through with a meeting. But on the other side of the ad is a man who seems able to peer deep inside her head and her heart at will. When Jennifer knocks on his door, she is drawn into a sensual and sexual world she never knew existed. This book is rated XXX and is intended for MATURE AUDIENCES ONLY. Books are my true lovers--I've taken far more of them to bed than I have men. And I've been disappointed far less often. Jennifer, in *Letting Go*. How on earth did I end up in this strange and vulnerable position? A year ago, I didn't know such a thing even existed. Six months ago, I would have said Oh, my god! Do people really do that? One month ago, I might have admitted the idea was intriguing and maybe even mildly titillating, but that I could never actually do it. No how. No way. You'd have to be crazy to do anything like that. And yet, here I am. I'm not crazy at least, I don't think I am. I'm standing with my feet spread far apart and my arms stretched up over my head, wrists tied together with something soft yet strong. I'm sorry I can't describe any of this for you in more precise detail, but I'm blindfolded. And did I mention that I'm naked?
