

Pinocchio in Africa

Pinocchio in Africa by Cherubini.

Collodis Pinocchio tells the story of a wooden marionette and of his efforts to become a real boy. Although he was kindly treated by the old woodcutter, Geppetto, who had fashioned him out of a piece of kindling wood, he was continually getting into trouble and disgrace. Even Fatina, the Fairy with the Blue Hair, could not at once change an idle, selfish marionette into a studious and reliable boy. His adventures, including his brief transformation into a donkey, give the author an opportunity to teach a needed and wholesome lesson without disagreeable moralizing.

Pinocchio immediately leaped into favor as the hero of Italian juvenile romance. The wooden marionette became a popular subject for the artists pencil and the storytellers invention. Brought across the seas, he was welcomed by American children and now appears in a new volume which sets forth his travels in Africa. The lessons underlying his fantastic experiences are clear to the youngest readers but are never allowed to become obtrusive. The amusing illustrations of the original are fully equaled in the present edition, while the whimsical nonsense which delights Italian children has been reproduced as closely as a translation permits.
