

Novantotto (Italian Edition)

Dalla prefazione dell'Autore al libro: L'intreccio di questo libro, pensato nel 1997, e scritto a più riprese dal febbraio di quell'anno all'agosto del 1998, immagina che si riesca finalmente a concludere un accordo definitivo di pace, sempre in modo diretto tra Israele e le Autorità Palestinesi, eliminando alla radice la principale leva in mano all'estremismo arabo. Nella trama, in particolare, viene descritta una sessione di negoziati totalmente aperta, nel senso che la agenda è dettata e plasmata dai due contendenti, senza più alcuna intermediazione diplomatica: assumendo così un ruolo di clamorosa rottura rispetto al passato. Scopo di quanto scritto sopra è illustrare come, all'epoca, non si trattava di un volo di ottimismo del tutto inverosimile: come può apparire oggi. Anche se, effettivamente, rappresentava proprio la parte di fantasia che un narratore fornisce alle proprie storie. A ben vedere, l'illuminazione finale dei due protagonisti è dettata appunto dalla necessità di rinsavire sul tema dello scontro: rinsavimento senza il quale si sarebbe arrivati alla madre di tutte le guerre: quella tra civiltà, religioni e culture. La Storia ha detto poi che una simile saggezza non ce n'è stata, ed anzi abbiamo avuto, soltanto tre anni dopo, l'Undici Settembre. Seguito proprio dalla Madre di tutte le guerre. Quindi, leggere questo romanzo (il quale comunque ha una trama di fantasia e lo scopo di intrattenere il lettore) potrebbe rappresentare una istantanea di come poteva essere il mondo se, per l'appunto, si fossero evitate le condizioni di base per l'Undici Settembre. Sapere che, in un passato ma preciso momento storico, la desolante scena internazionale a cui siamo avvezzi non appariva così scontata, può costituire la chiave e la motivazione di lettura: per un libro che descrive ciò che non è mai avvenuto. La fantasia, per una volta e sfortunatamente, non è stata superata dalla realtà. Ciò non significa che non sia

interessante leggerne una parte.
