

The Quality of Mercy/Harvest of Courage (Eileen Ramsay omnibus)

THE QUALITY OF MERCY - As an orphan waif growing up in a Glasgow convent before the warm Ferelith Gallagher was used to going her own way in life and dreamed of being Scotlands first female legal advocate. An early, disastrous marriage makes her bury her head in her studies and forsake the attentions of the eligible men in whose circles she moves. Yet if love has not finished with her for good, is it possible she can still have it all?

HARVEST OF COURAGE - Blissfully happy in the countryside of her birth, Mairi McLoughlin was content to marry a farmers son. Her brother Ian feels destined to be more than a farmer and is envious of his friend Robins academic prowess. With the outbreak of war, Robins romantic spirit is crushed in the horror of Ypres and Ian, a conscientious objector, sees the world in ways he had never dreamed. As Mairi works the land, harvesting continues across the fields of France - the harvest of human lives...
