

# Snow Queen and other fateful tales

This book is the second of twenty short stories which compliment the first collection under the title of The Trap offering more fascinating tales of adventure and misadventure. These range from the title story Snow Queen who saved the story tellers life in a killer blizzard, to A Trick of Time in which a modern-day traveler finds himself thrown back in time and involved in a cruel murder. Fate plays its hand for good or evil as the characters pursue their ambitions for lust or wealth - often with unanticipated results.
