

Utaziah is a modern day message of Universal Truth written in modern day terms which are relevant to today's society. This guidance has been given by a higher source to enable people to start to learn about the differences we may have as individuals and communities, to encourage a more tolerant approach to how we treat each other and to begin accepting that the differences we share with regards to a lifestyle choice, a choice of partner, a certain religious practice, as they are not so different once you understand the basic principles of faith and life. This message will hopefully start humanity on the road to a more peaceful existence and concentrates on how we can change our local societies into better places to live, encourages change on a global level by beginning to eradicate prejudice. It encourages us to work together to build a society which will enable future generations to come, a more peaceful and productive life, where the arguments over the differences are no longer barriers which have to be overcome, but a collaboration of different colours, shapes and patterns to the rich tapestry of life. Life is a gift from God and Goddess, a blessing from on high to be utilised and built upon in a positive manner so humanity can prosper United and Strong, instead of being fragmented, by Uniting and Accepting that each of You being different adds to the spice of life then the Bigger Picture can be achieved. Let Our Generation be the ones who created Peace for the Future Generations yet to be born, for depending on the choices we make as individuals the children will either be the Beneficiaries of a Paradise or the Victims of the Seeds we have Sown. So the Choice really is Ours to make.
