

These articles are a perceptive and prescient analysis of the politics and policies of the war and the following flowering of witch hunts of the west and the repressions of the east. Now we are away from the topicality of the dread dead disasters that spurred them, see what now shines through: the authors warm humanism and intellectual honesty. In the decades since, we have gone from cold wars through detente to current glasnost. Bloody wars all the time. Marie-Louise Berneri stands firm for freedom, us against them. The choice before us all at every turn from entropy is expediency and comfort or the harder but more rewarding radical proposition that an injury to one is the concern of all.
